Experiencing Technical Issues?

Small Business Ineligible?

If you are completing a small business application and the business is found ineligible, what do you do? This is likely due to inadvertently entering 0 FTEs in the Eligibility section of the application. Make sure that you enter the total number of full-time equivalent employees (FTEs) in the last box. If the business was not in existence in the prior calendar year, enter the best estimate of FTEs for the current calendar year.

Login during Plan Enrollment?

If you are in the plan shopping section and are prompted to login or setup a user profile, what do you do? This is likely due to your original login session timing out. To fix, simply:

- Open a new web browser
- Login to DCHealthLink.com
- Select the plan
- Complete enrollment.
