Re: Advisory Committee Recommendations

Dear Executive Board Members:

The DC HBX Advisory Board (the Board) was charged with identifying and recommending applicants for appointment to HBX Plan Management Advisory Committee. This process was completed in February 2013. Since the formation of the Plan Management Advisory Committee, two members of the committee, one health insurance broker and one dental carrier representative, have resigned.

The Board has considered replacements for each of these members and recommends the following individuals who have demonstrated the requisite skills, professional qualifications, and community involvement to make substantive contributions to the issues that must be addressed on the Plan Management Committee in order to successfully build the District's Health Benefit Exchange:

1. Margaret Flickinger, President/CEO, Keller Benefits
2. Michael Hickey, Government Relations Council, MetLife

Sincerely,

Claire McAndrew
Vice-Chair, DC HBX Standing Advisory Board
