Broker Registration on DC Health Link

To sell insurance through DC Health Link, brokers will need to complete a request for registration. It will include contact and business information that will be included in our broker directory and displayed on DC Health Link.

Additionally, in order to be included in the broker directory for the October 1st opening, all completed registrations must be

Brokers must complete a total of six hours of training in which 4 hours of CE credits will be provided for the District of Columbia. Training will consist of two parts: District specific policies and DC Health Link website training.

[DC Health Link Policy Training](#): Brokers must complete 4 hours of DC Health Link policy training that is specific to District laws and policies. Training will be provided both in person and online.

submitted no later than September 6th, 2013. All registration requests should be submitted after the following have been completed:

- District resident or non-resident producer license
- Appointments with all licensed carriers as required
- DC Health Link Policy Training

Registration requests will not be approved unless the above re-

quirements are met.

As a reminder, brokers do not need to complete DC Health Link website training, prior to registration, but this training must be completed after it becomes available.

Once the above three requirements have been met, a broker can register to sell insurance on DC Health Link at
